## AGRICULTURAL SERVICE BOARD ACT

The Agricultural Service Board (ASB) Act is a provincial legislation that enables municipal ASBs to exist and operate across Alberta. The Act authorizes ASBs to advise on and assist in organizing weed and pest control, as well as soil and water conservation programs. Through this work, the Act supports the promotion and enhancement of sustainable agriculture. For more information visit [www.alberta.ca](http://www.alberta.ca) → Search Agricultural Service Board Act

## HABITAT & BIODIVERSITY ASSESSMENT TOOL

About 75% of Alberta's species at risk are found in the grassland and parkland regions. The Habitat & Biodiversity Assessment tool is great for learning about what species may call your land home and navigate what activities can support their habitat on your operation. Learn more at [www.albertaEFP.com](http://www.albertaEFP.com)

# ADDITIONAL INFORMATION AND UPDATES

## ORGANIZATION HIGHLIGHT

The Wild Sheep Foundation Alberta is a volunteer run organization that promotes and funds initiatives to support healthy bighorn sheep populations in Alberta. Its programs focus on responsible wildlife management, conservation education, youth involvement, and preserving our hunting heritage.

Read more about them at [www.wsfab.org](http://www.wsfab.org)

## GOOD TO KNOW

WILD BOAR IN ALBERTA

Wild boar are an invasive species and are regulated provincially under Alberta's Agricultural Pest Act. They can damage property, agricultural crops, pastures and the environment, and may pose a risk to people and animals.

Wild boar are considered a pest in all circumstances, not only when found at large. This means that it is illegal to keep, import, purchase or otherwise obtain, export, sell or otherwise dispose of or transport live wild boar or wild boar hybrids without a permit.
